

BULLETIN NUMBER: PENS-12-003
TITLE: Introducing the Actuarial Information Summary
LEGISLATION: *Pension Benefits Standards Act*
DATE: October 2012

Introducing the Actuarial Information Summary for Defined Benefit Pension Plans

Starting in 2013, the Superintendent of Pensions will require that plans with a defined benefit component file the new B.C. Actuarial Information Summary Form (the AIS). The AIS will be a web-based electronically filed form similar to the Annual Pension Return.

The AIS will provide the Superintendent's staff with a means of electronically capturing standardized actuarial valuation data through a secure web application.

Note that plans will still be required to file actuarial valuation reports.

More information about the AIS will be posted on the FICOM website within the next few months.

We encourage you to visit the website www.fic.gov.bc.ca for updates.
